# Seth Brosey Morgan

Medway, OH 45341 | (415) 948-8277 | seth.b.morgan@outlook.com

www.linkedin.com/in/sethbmorgan | https://github.com/sbmorgan

## SUMMARY

Quantitative research and data analyst with 15+ years' experience evaluating domestic public policy and international development programs across the education and agriculture sectors.

## PROFESSIONAL SKILLS

- Quantitative research methods: evaluation design; econometrics; technical writing
- Statistical programming (Stata; R): data cleaning, manipulation, analysis, and visualization
- Software & AI: Git; GitHub (web/desktop); GitHub Copilot; MS Office Suite; Microsoft Copilot
- Foreign language: Spanish (proficient)

## EDUCATION

**University of San Francisco** — San Francisco, CA

M.A. in International & Development Economics — May 2008

**The Ohio State University** — Columbus, OH

B.S. in Agriculture (Agribusiness & Applied Economics) — December 2001

## PROFESSIONAL EXPERIENCE

**Data Analytics and Evaluation Design Consultant** — **Jan 2023-present**

*Freelance*

- Lead R programmer for a client project developing novel network meta-analyses of multicomponent mathematics interventions to identify instructional practices associated with improved outcomes for students with disabilities using the R package *metafor* (CNMA | inresg; GitHub: IRG/network-meta-analysis). *May 2023-present*
- Lead R programmer for a client project evaluating the impact of Goalbook Toolkit usage on educator practice and student outcomes within the state of Louisiana. Programming tasks include data validation, wrangling, cleaning, analysis (multivariate regression), and visualization. *Nov 2025-present*
- Perform risk-of-bias appraisals of literature on summer change in student reading performance for the University of Tennessee's Summer Meta-Analyses evaluating the benefits of summer reading programs. *Mar 2026-present*
- Provide senior technical review guidance and coordination for the rating of education research against evaluation design standards established by the What Works Clearinghouse (WWC) of the U.S. Department of Education for contracts awarded to multiple clients by the Institute of Education Sciences (IES). *Feb 2023-present*
- Served as a peer reviewer evaluating grant applications for the 2025 Fund for the Improvement of Postsecondary Education – Special Projects Program (The FIPSE Special Projects Program | U.S. Department of Education).
- Served as a peer reviewer evaluating grant applications for the 2023 Postsecondary Student Success Grant (PSSG) Program (Postsecondary Student Success Grant (PSSG) Program | U.S. Department of Education).

**Mathematica** (www.mathematica.org) — **Jun 2011-Dec 2022**

*Sr. Data Analytics Developer* — *Mar 2019-Dec 2022, remote*

*Research Analyst* — *Jun 2012-Mar 2019, Oakland, CA & remote*

*Research Assistant / Programmer III* — *Jun 2011-Jun 2012, Oakland, CA*

- Scripted dozens of complex data sampling, cleaning, manipulation, and analysis Stata programs for numerous evaluations of domestic public policy and international development programs across the education and ag sectors.
- Spearheaded the international unit's statistical programming quality assurance review team ensuring accurate and precise analysis results strengthening the company's reputation of producing high-quality, credible research.

- Developed a Stata user-written program (.ado) to automate the cleaning of survey data increasing programmer productivity, reducing programming errors, and improving consistency across data cleaning tasks.
- Led the development of numerous public- and restricted-use files, including codebooks and documentation, for which I designed an intricate Stata user-written program (.ado) to automate the data deidentification process.
- Coauthored numerous research evaluation design and results reports balancing technical writing with data storytelling methods to ensure all written deliverables were accessible to disparate analytic audiences.
- Designed dozens of succinct specification documents to efficiently guide junior staff in the execution of complex statistical programming tasks congruent with their projects' evaluation designs increasing team productivity.
- Effectively coached numerous junior staff in statistical programming and data management best practices accelerating their on-boarding processes allowing them to contribute more meaningfully to projects sooner.
- Reviewed, rated, and reconciled against evaluation design standards the quality and rigor of dozens of studies evaluating the effectiveness of education interventions as a certified reviewer for the What Works Clearinghouse.
- Efficiently managed and mentored a team of 15 What Works Clearinghouse certified reviewers for the accurate and timely execution of a systematic review effort within the pre-k/kindergarten topic area.
- Coauthored and analytically contributed to numerous What Works Clearinghouse products effectively communicating to educators and policy makers "what works" for improving learning and pedagogical outcomes.
- Reviewed and rated against evaluation design standards the quality and rigor of numerous studies evaluating the effectiveness of home-visiting models that serve families with young children as a Certified Evidence Reviewer for the Home Visiting Evidence of Effectiveness (HomVEE) of the U.S. Department of Health and Human Services.

**Freeman Sullivan & Co.**, San Francisco, CA **Nov 2009-Dec 2010**

*Senior Analyst*

- Authored numerous complex Stata programs to estimate ex-post and predict ex-ante impacts of demand response programs for moderating air conditioning demands on client electricity loads during peak usage times.
- Designed and constructed load pivot tables, interactive report charts, and other explanatory data visualizations for the presentation of results of demand response load impact analyses.
- Coauthored reports on estimated and predicted load impacts of demand response programs to guide energy management policies and decision-making of client electricity utility companies and associated governing bodies.

**Trickle Up** (trickleup.org), New York, NY **Jun 2009-Aug 2009**

*Program Intern- Monitoring & Evaluation*

- Estimated and statistically described poverty likelihoods of program participants using proxy income research data collected with poverty scorecards for internal program monitoring and decision-making.
- Designed analysis indicators based on poverty alleviation evaluation literature and quantitative data collected from program sites as part of the design of program performance evaluations for poverty reduction amongst participants.
- Wrote statistical programs for cleaning and analyzing quantitative program research data to statistically describe program activities and participants and estimate program performance on poverty alleviation amongst participants.
- Designed data tables for the organized entry of quantitative data collected from program sites structured to facilitate direct use by staff for descriptive statistics and the seamless importation of data to statistical software.
- Authored statistical guidance for use by monitoring and evaluation staff on the relationship between sample sizes and statistical power for the proper scaling of program performance evaluations given time and budget constraints.

**Proyecto Mosaico Guatemala (PMG)**, La Antigua, Guatemala **Feb 2005-May 2006**

*Coordinator of Volunteers*

- Coordinated all the activities of 52 PMG English/Spanish-speaking volunteers including international travel, work placement, orientations, homestays, and Spanish study.
- Managed the volunteer database and implemented more expansive descriptive analyses of its contents.
- Controlled the monitoring of 60 active projects assuring compliance with PMG regulations.

## CERTIFICATIONS

- **Human Subjects Research – Social-Behavioral-Educational (SBE) Foundations**
  CITI Program- *Issued Dec 2025 · Expires Dec 2026*
- **WWC Reviewer Certification, Single-Case Design Standards (SCD), Version 5.0**
  What Works Clearinghouse (WWC), Institute of Education Sciences (IES)- *Issued Apr 2024*
- **WWC Reviewer Certification, Group Design Standards (GDS), Version 5.0**
  What Works Clearinghouse (WWC), Institute of Education Sciences (IES)- *Issued May 2023*
- **WWC Reviewer Certification, Regression Discontinuity Design (RDD) Standards, Version 4.1**
  What Works Clearinghouse (WWC), Institute of Education Sciences (IES)- *Issued May 2022*
